

## MEXICO

Mexican students are the largest population of Latin American PhD students at the Université de Toulouse with 48 PhD candidates in 2017, including 3 doing a joint PhD. The International PhD Office is very involved in the development of the cooperation with Mexico and every year, we participate in « Tu doctorado en francia » event and Europosgrados fairs.

### CONACyT PROGRAM

In 2012, a cooperation agreement establishing a joint program granting scholarships for Master, Doctorate (PhD) and short research projects was signed. This agreement has been designed to strengthen the relations and university cooperation between France and Mexico, the National Council of Science and Technology of Mexico (CONACyT) and the Université Fédérale Toulouse Midi-Pyrénées with the support of the Maison Universitaire Franco-Mexicaine. This agreement has been resigned in July 2015.
